Vince,

You rock. Sorry for the fire drill, been a lot of those for me lately. Hope you are mostly groovy.

Brenda, attached is the most recent fact sheet that I prepared for Circle Court.

Under Current Status in the fact sheet, the most recent activity includes the following:

- the GAC unit maintained by TCEQ on the only residential well at the site was removed in December when the residence was connected to the Willow Park water supply system. The water line connection was paid by property owners, not EPA or TCEQ.
- a passive soil gas survey was completed on the two residential properties adjacent to the Willow Park water supply well but did not delineate a possible source area for the TCE release.

(See attached file: *FINAL-REV_CircleCourtFctSheet_7-2012.pdf*)

Thanks.

Hi All,

Wren asked me to prepare fact sheets in the We Care format for the RA upcoming visit to New Orleans and Freeport, four of the sites have already been proposed to the NPL and I would like to make sure I have the most up to date information. See my note to Wren below. The four NPL sites are Evr-Wood, Cedar Chem, US Oil, and Circle Court. If you already have recent fact sheets will you please send them to me, also let me know if there are any outstanding issues that need to be included in the fact sheets. If you can get your information by COB today. I will send them back to you to review by COB tomorrow, so that between us we can be assured that we are providing the RA with the most relevant information. Your help is greatly appreciated.

:) brenda

(See attached file: NS - EVR-Wood Treating Evangeline Refinery Company.pdf)
(See attached file: wilcoxns2013.docx)

Hi Wren,

I have already completed the one for Wilcox, Ghassan is reviewing it. The following 4 sites are already on the NPL

EVR Wood
Circle Cour GW Plume
Cedar Chemical
US Oil

and the RPMs will have the most up to date information, I will coordinate with them to see if they have already prepared any fact sheets recently

or if there any high profile issues regarding these sites. Please find attached the NPL Narratives for these 4 sites.

I have a draft Narrative Summary for Wilcox (it is still confidential and can not be shared outside of EPA until the proposal). There are no NPL Narrative Sheets for Delta or Norphlet, as we generated them based on the HRS Documentation Records and we have not completed them for either site. I will have the fact sheets to you by Thursday.

Brenda, I need to get a "We Care" for each of the following sites and a map showing each location, plus send me the NPL listing fact sheets that you have previously created for each site.

Wilcox Oil (you are already working on the We Care format for this one)
EVR Wood
Circle Cour GW Plume
Cedar Chemical
US Oil

Delta Shipyard
Norphlet

If you need some help, please enlist your Site Assessment buddies. I need these by Thursday COB. Thanks
